## **1.0 PURPOSE**

DART landing gear kits are provided in a white finish by default. Black-painted landing gear can be ordered by the addition of the suffix "BG" onto the part numbers (eg. D119-796-021 = white, D119-796-021BG = black). The black-painted kits shall be installed per the equivalent white-colored kits in IIN-D119-796 and maintained per ICA-D119-796. The purpose of this DART Service Instruction (DSI) is to provide part lists for the black-painted landing gear kits.

The components in the DART installations are as defined in the Tables of this service instruction. For convenience, only the last three numeric digits of the Part No. are listed on the top row of each table. The quantity of each component which is included in the D119-796-021BG Landing Gear Assembly, for example, is as defined in the column labeled -021.
